

Asphalt Roller

400 Vibratory Roller

LeeBoy's 400 Vibratory Roller is a versatile, 2.5- to 5-ton vibratory roller featuring maneuverability, visibility of the work area, ease of operation and safe, comfortable operation.

The powerful 400 roller is a durable workhorse for asphalt paving projects from streets and parking lots to driveways and sidewalks.

The 400 Vibratory Roller delivers more vibratory force to the ground, which adds up to increased compaction per pass and enhances mat quality.
