Electric Screed System

Introducing The LeeBoy Legend Electric Screed System

Electric Heat for Commercial Pavers

Commercial paving contractors have asked for an electric screed system and LeeBoy, the world's leading maker of commercial asphalt pavers, delivers with the new Legend Electric Screed. The Legend Screed System has long been the industry standard for design, reliability and for producing the high quality mat contractors demand.

On the jobsite, the new Legend Electric Screed System on LeeBoy 8816, 8515 and 8500 pavers has generated the heat and high quality mat required, all without the fuel, flame and fumes of traditional screed heating systems.

Environmentally Friendly, Economically Wise

Commercial paving contractors now have a choice - electric or propane - for their LeeBoy paver screed heating needs. Electric provides safe, even heat for smooth, efficient paving.

Legend Electric Screed System

Featured With:

- 8 to 15.5 Foot Paving Width (8816)
- 8 to 15 Foot Paving Width (8500/8515)
