

SafeGard W

SafeGard water based rust preventatives protect metal surfaces safely, effectively and economically both indoor and outdoor. SafeGard is a low odor, stable, non-reversible, non-flammable, water emulsion which is also non-toxic. SafeGard is easy to apply and quick draining, which accounts for clean oil free bins, packages and work areas. SafeGard can be pigmented in many colors. SafeGard W leaves a soft oil coating on the metal surface upon drying. SafeGard demonstrates definite suppression of fingerprint corrosion and resists fingerprint corrosion upon subsequent handling.

Surface preparation: For maximum protection, surfaces should be free from dirt and oil. SafeGard can be applied over damp metal surfaces.

Method of application: Brush, spray or dip.

Application temperature: Between 40° F and 100° F

Removal: Use an alkaline cleaner such as SafeGard 11085A.

HAZARD: May cause minor skin irritation

Protective Gloves: Rubber.

Eye Protection: Use safety glasses.

Work/Hygienic Practices: Wash Hands before Eating.

Emergency and First Aid Procedures: Wash with soap and Water. If ingested, induce vomiting & Consult Physician.
